september 2016

De afgelopen 12 jaar zijn in een versneld tempo architecten van CAD naar BIM-met-REVIT aan het overschakelen, en gans de sector (ook ingenieursbureau's, aannemers, en bouwheren) is nu naar BIM aan het evolueren. **Waarom ? Hoe wordt die overstap aangepakt en ervaren ? En ... wat zijn de resultaten ?**

Via de testimonials van enkele architecten en bouwheer, via enkele **voorbeelden en ervaringen uit de praktijk**, kon je dit komen ontdekken op donderdagavond 29 sept. 2016 in het AuditoRium4 te Gent. De ervaringen werden

gedeeld aan de hand van enkele concrete projecten. Ook de bouwheer van dit nieuwbouw-project weet ondertussen waarom BIM aan de orde is, en kwam dit verduidelijken! In dit artikel een beknopt verslag van deze infoavond, inclusief de downloadbare presentaties van de sprekers.

De lokatie (AuditoRium4 in gebouw 485 van de Communicatiecampus te Gent) was uitstekend geschikt voor dit event: dit nog maar pas gerealiseerde nieuwbouwproject werd als studieproject ook al in BIM uitgewerkt, en is de thuis van BIM-platform: een onafhankelijk communicatie- en kennisplatform dat inspireert en oplossingen aanreikt met betrekking tot BIM en zich richt tot opdrachtgevers, architecten, producenten, adviseurs, aannemers en installateurs. De **meer dan 100 deelnemers** aan deze infoavond hebben heel wat kunnen opsteken: sommigen stonden toch wel verbaasd te kijken hoe ook een kleiner architectenbureau zoals D. Depoortere optimaal gebruik maakt van Revit bij de voorbereiding van bouwprojecten, en de reeks realisaties die Abscis architecten op een paar jaar tijd al met Revit gerealiseerd heeft spreken boekdelen: **BIM is de toekomst !**
